SirsiDynix OneStop Named Library Journal “Editors’ Pick”

OneStop’s full self-service features recognized as best in library furnishings and design solutions

HUNTSVILLE, Ala., July 5, 2006 – SirsiDynix, the global leader in strategic technology solutions for libraries, announced today that the SirsiDynix OneStop™ was chosen by a panel of industry experts for inclusion in the “Editors’ Picks” section of *Library By Design*, the spring 2006 *Library Journal* supplement on library interiors. SirsiDynix solutions have earned this distinction for two consecutive years. The SirsiDynix Digital Community Center Kiosk™ was selected for this honor in the fall of 2005.

Developed in partnership with EnvisionWare, OneStop is an integrated solution for full self-service management of library public services. OneStop frees library staff members of many routine procedures and gives users more control over their library experience. With OneStop, library users can renew or check out materials, pay fines and fees, reserve a PC, pay for print jobs and more – without assistance from library staff.

“People are increasingly opting for self-service and enjoying added convenience and time savings,” said Eric Keith, SirsiDynix vice president of market development. “Libraries and their users can also benefit from the improved service and efficiency that self-service offers. While there are various self-check products on the market, OneStop is more than just a self-check machine. A truly comprehensive solution, OneStop integrates self-checkout, fine payment, online account revaluation, self-registration, PC reservation and print management. It’s one of many SirsiDynix solutions that improves libraries’ productivity and enhances their ability to serve people and communities.”

Compatible with either barcoded or RFID-tagged collections and patron cards, OneStop offers multi-lingual, multi-currency support and ADA compliance.

About SirsiDynix

SirsiDynix is the global leader in strategic technology solutions for libraries – vital institutions whose primary mission is to make sense of the vast world of information for people and communities. This is an exciting role as libraries assist people in discovering and using knowledge, resources and other valuable content for their educations, jobs and entertainment. In concert with key industry partners, SirsiDynix supports this strategic role for libraries by offering a comprehensive integrated suite of technology solutions for improving the internal productivity of libraries and enhancing their capabilities for meeting the needs of people and communities. SirsiDynix has approximately 4,000 library and consortia clients, serving more than 300 million people through more than 20,000 library outlets in the Americas, Europe, Africa, the Middle East and Asia-Pacific.
