April 3, 2024, LEHI, UT—SirsiDynix, a leading provider of library technology solutions, is pleased to announce that they will be exhibiting at the Public Library Association 2024 Conference, taking place at the Greater Columbus Convention Center in Columbus, Ohio, this week.

From the moment exhibits open today at 3 p.m. ET through the 1:30 p.m. ET closing reception on Friday, April 5, you can find SirsiDynix product experts at booth #1001.

"We are thrilled to connect with public library professionals from around the world at this year's PLA conference" says SirsiDynix Chief Executive Officer Bill Davison. "We believe in the power of libraries, and providing tools to help them transform their communities is at the heart of everything we do. This week, we look forward to highlighting several products and services that demonstrate our commitment to this focus and to public libraries everywhere."

For those interested in learning more about SirsiDynix or exploring the latest product news, including exciting updates on the offerings below, the team encourages you to visit booth #1001.

- **BLUEcloud Core:** Comprised of three intuitive cloud-based modules—BLUEcloud Circulation, BLUEcloud Cataloging, and BLUEcloud Acquisitions—this multitenant system expands possibilities for staff and users at single sites, large consortia, and every variation in between.

  Of particular interest at PLA: BLUEcloud Circulation. With a substantive new development initiative already underway and several enhancements coming soon, now is the perfect time to review the comprehensive web-based circulation solution. See how it can help you effortlessly manage patron data, checkouts, check-ins, holds, and other everyday tasks—and preview what's next—at the SirsiDynix booth.

- **BLUEcloud Mobile2:** Built on powerful new shared services, this all-new mobile discovery application offers a fully integrated, customizable, and dynamic experience that empowers patrons and staff and carries libraries into the future.

- **BLUEcloud Discovery:** Currently in development, this cloud-based, next-generation platform will help library professionals and their users take charge of the discovery experience like never before. Once released, it will deliver

powerful search capabilities, enhanced user engagement and communications opportunities, streamlined administrative workflows, customizable design components, and more.

- **CloudSource**: A revolutionary content and discovery services platform that unites the ever-expanding index of global OA and OER materials with more than one billion licensed and on-demand resources. This now includes direct linking to Gale's wide range of online databases. *Register for a demo on April 4 or 5 to learn more.*

- **OSAS:** A unique, new service that helps system admins tackle routine to-do list items—such as on-demand reports, policy changes, and weekly user loads— and shift their focus to the needs of patrons and stakeholders.

The SirsiDynix team looks forward to connecting with you soon! In the meantime, you can read more about SirsiDynix products and services at www.sirsidynix.com.

About SirsiDynix

SirsiDynix believes in the power of libraries. Transforming and shaping their communities every day, that power inspires us to connect people with knowledge at more than 20,000 libraries worldwide. SirsiDynix technology combines relevant resources with the Best Library User Experience (BLUE). With our Best-of-Breed approach, SirsiDynix gives libraries the greatest and most expansive range of options for their software. Complemented by the most experienced training, consulting, and support staff in the industry, SirsiDynix helps libraries to reach their highest potential while serving their communities.
